PROFIL (PROFILE)

Cybersecurity Research Analyst with 1–3 years of experience in penetration testing, Red Team operations, and vulnerability research. Proficient in Burp Suite, Metasploit, Nessus, and Splunk. Holds ISO/IEC 27001:2022 Lead Auditor, CISSP, CRTOM, and VAPT certifications. Builds custom offensive security tooling and delivers actionable findings for enterprise clients. Seeking a Penetration Testing or Offensive Security role in Germany.

BERUFSERFAHRUNG (EXPERIENCE)

Cyber Security Research Analyst Terra System Labs <i>📍 Bangalore, India</i>	Dec 2024 – Present
- Developed custom penetration testing and security automation tools, improving detection efficiency by ~30%. - Discovered and documented critical high-risk exploits in enterprise software through advanced vulnerability research. - Executed web, network, and infrastructure pen tests; supported Red Team engagements for client environments. - Delivered threat intelligence reports and remediation guidance aligned with OWASP Top 10.	
Full-Stack Developer (Security-Focused) SkillKaster <i>📍 Remote</i>	Dec 2024 – Jun 2025
Built React.js / Node.js applications with OWASP-compliant secure coding practices and IPFS decentralised storage.	
Cyber Crime Investigator Intern Tamil Nadu Cyber Crime Wing <i>📍 Coimbatore, India</i>	Jun – Jul 2023
Investigated cybercrime incidents via digital forensics and Splunk log analysis; supported rapid incident response.	
VAPT Intern BM Infosec Limited <i>📍 Coimbatore, India</i>	Jun – Jul 2022
Performed vulnerability assessments on open-source software; reported critical findings with remediation steps.	
Cybersecurity Intern IBM <i>📍 Coimbatore, India</i>	Mar – Apr 2022
Triaged 100+ daily security events in Splunk/Nessus; reduced false positives 15% and improved SOAR workflows 25%.	

TECHNISCHE KENNTNISSE (TECHNICAL SKILLS)

Pen Testing Tools	Burp Suite, OWASP ZAP, Metasploit, Nmap, Nessus, Nikto, Wireshark, Wazuh
Red Team & Exploit	Red Team Ops (CRTOM), Custom Exploit Dev, C2 Frameworks, Phishing Simulation
SOC / DFIR	Splunk SIEM, IDS/IPS, Threat Intelligence, Incident Response, SOAR, Malware Analysis
Programming	Python, Bash, JavaScript, Java, C, SQL
Dev & Frameworks	React.js, Node.js, FastAPI, REST APIs, IPFS, Streamlit
Standards	ISO/IEC 27001:2022, ISO/IEC 42001:2023, OWASP Top 10, GDPR awareness

PROJEKTE (KEY PROJECTS)

RREF – RedOps Recon & Exploitation Framework Custom offensive toolkit for automated recon, exploitation, and post-exploitation reporting (Red Team).	Sentinel-SDK – Black-Box Security Auditing Standalone vulnerability detection framework with modular plugin architecture for external assessments.
Phantera – Insider Threat Detection (ML) Behavioral biometrics anomaly detection (keyboard/mouse) using ML; FastAPI backend + Streamlit dashboard.	Drift Enterprises – Secure E-Commerce Full-stack React.js / Node.js enterprise platform built to OWASP secure development standards (freelance).

ZERTIFIZIERUNGEN (CERTIFICATIONS)

- ISO/IEC 27001:2022 Lead Auditor ▪ ISO/IEC 42001:2023 Lead Auditor ▪ VAPT Specialist – Bored Monk
- CISSP – Alison ▪ CRTOM – Red Team Leaders ▪ C3SA – CyberWarfare Labs
- Oracle Cloud Infra Foundations ▪ Blockchain Security – Cyfrin ▪ SOC Analyst – LetsDefend.io

AUSBILDUNG (EDUCATION)

BSc Computer Science – Cloud Technology & Information Security

Rathinam College of Arts and Science, Coimbatore | Grade: 89% (Distinction)

2021 – 2024

SPRACHEN (LANGUAGES)

English: Fluent (C1)

Tamil: Native

German: Beginner (A1 – actively learning)

AUSZEICHNUNGEN (ACHIEVEMENTS)

- Kavach 2023 (National Cybersecurity Hackathon), TN Startup & Idea Hackathon 2.0
- HackerRank: SQL 5★ | Python 3★
- CTF: HackerOne, Payatu, Razzify – web & binary exploitation
